

2006 Commendations

Project Management

t:m Advertising - January 30

"Business Interiors Project Manager was professional, calm, responsive, and totally committed to making our project successful. He is a true credit to your organization. He understood the schedule I created and did whatever was necessary to meet each step of the project on time, or early. He coordinated with the other contractors whenever it was necessary, and he was a strong advocate for TM Advertising's needs if I wasn't available to voice those needs myself. It was a great comfort to me to know that someone else was as committed to our project's success as I was."

On-Site Team

Alcon Labs - August 21

"I cannot say enough about how each of the Business Interiors employees makes our life easier. They encounter so many opportunities on our campus, and not once have I ever not seen a smile and a pleasant attitude! BI prides itself on customer service and this is one prime example they should be very proud of those they employ to take care of each and every request their clients have. Please ensure the BI team is recognized at your next meeting. We honestly would have great difficulty in performing the requests without this team!!"
