

2011 Commendations

Networks Installation

Tangram - March 2

On behalf of the Tangram team, I wanted to write you a quick note to commend your group on the AECOM Dallas installation performed on our behalf over the past few weeks. In particular, I would like to recognize Business Interiors Project Manager and Lead Installer for an outstanding job for our customer. Their flexibility and responsiveness to us and to the customer was fantastic, and has paid off as we have an unbelievably happy customer.

From the first moment I asked for help from your Networks Coordinator, we have had nothing but a great experience working with them and Business Interiors. I visited the site Monday and Tuesday of this week and was bombarded with thanks for a job well done by the AECOM internal Project Management team, who was there from all over the United States. In addition, the CBRE team from Equity Office was extremely complimentary and I feel compelled to share the good news! You all made us look good with an extremely high level customer, and for that we are grateful.

While I know most projects have their challenges and this one was no exception, your team was professional and responsive and made this seamless. I look forward to working with all of them again in the future.
